

KAZIM ALI

SOFTWARE ENGINEER

Phone number: (+92) 3003635230 Email address: kazimalichanna@gmail.com

I am a BS Software Engineering graduate from Sukkur IBA University with a strong focus on Java development, cybersecurity, and cloud computing. Passionate about solving real-world problems, I have experience in building secure and scalable applications while ensuring clean code and user-centered design. I am eager to apply my skills in professional projects, explore emerging technologies, and contribute effectively in collaborative environments.

EDUCATION AND TRAINING

BS SOFTWARE ENGINEERING

Sukkur IBA University [2021 – 2025]

Core Subjects: Programming Fundamentals (Java, C, C++), Object-Oriented Programming (OOP) Data Structures & Algorithms, Computer Networks, Cybersecurity, Cloud Computing, Web Development Software Engineering, Database Systems (MySQL, MongoDB, SQLite)

EXPERIENCE

Freelance Developer & Designer – Fiverr

Worked on various international projects, including responsive web applications using **HTML, CSS, JavaScript, React, and Node.js**, Android app development with clean UI, and modern UI/UX design in **Figma**. Delivered client-focused solutions by combining technical skills with creative design.

CEO & Founder – Sweet Hives (PITB NICs Startup)

Founded a startup under **PITB NICs**, producing and selling organic honey. Built and managed websites to promote online sales, focusing on digital presence, branding, and customer engagement.

PROJECTS

Blockchain-based E-Voting System (FYP): Developed a blockchain-based e-voting system using Solidity with smart contracts for secure vote recording and validation. Contributed to mobile UI design (React Native, Figma) with features like voter authentication, candidate selection, and real-time confirmation.

Hostel Management System (Java Project): Developed a Hostel Management System in Java with MySQL for managing records, room allocations, and fee tracking. Implemented CRUD, authentication, and reporting to streamline hostel administration.

Cloud-Based File Storage & Sharing System: Developed a Cloud-Based File Storage & Sharing System with secure upload, storage, sharing, and real-time sync. Implemented authentication, role-based access, encryption, and cloud deployment for scalability and security.

Daily Quote Notification App (Android, Jetpack Compose): Built an Android app with Jetpack Compose that fetches daily quotes via API and sends scheduled notifications. Added features to set custom times and write personal quotes for daily reminders.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, C, C++, Solidity

Front-End Technologies: HTML, CSS, Bootstrap, Tailwind CSS, jQuery, React.js

Back-End Technologies: Node.js, Express.js, Flask, Django

Databases: MySQL, MongoDB, SQLite

Tools & Platforms: Git, GitHub, AWS, Figma, Kali Linux, Power BI, Android Studio, Ganache

CETIFICATES

Java Programming – [12/05/2023] , Cybersecurity Fundamentals – [20/03/2024]

Introduction to MongoDB – [17/04/2025]
